Thank you. I had some Bass Pro gift cards and wanted to buy something new. I ended up with the TFO Pro 26wt because I want to fish with it for Bass and trout. I figure I can use my 5wt sometimes too. BUT... I really wanted a 4 piece to replace my 5wt. I keep thinking of returning it for another 5wt.

I thought we were moving to South Carolina for a job....It looks like it will be at least a year. So... 5 or 6 for the combo of Trout and Bass?
