Fish and ski the same day.

Last Monday, Feb 25th I ended up fishing and skiing at the same day. Can't resist simplicity of clear and lonely creeks at **Laurel Hill Creeks** (DHALO) and beauty of blue sky and nice snow at **Seven Springs Resort**, Somerset.

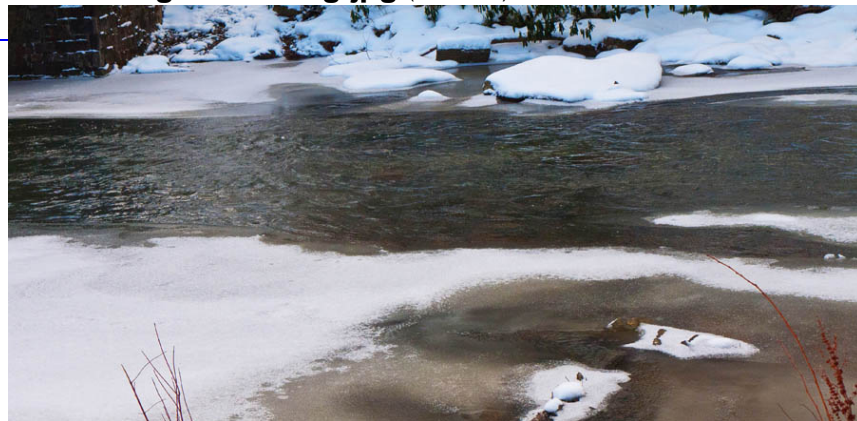

The two sports sort of compliment each other and when you fish and get nothing in the sunny, shade-less day you may really enjoyed the cloudless sky and crisp slopes.

This can go the other way also.

I can only tell: the both were refreshing and nice.
