I volunteered for the USA fly fishing team event they had up here in central/upstate NY last summer. It is a terrific event and a great group of guys. I recommend to all that can do it to help out. Controlling is very easy. You just make sure they caught the fish without fowl hooking it and measure it. I am from State College area originally and it was cool to meet a couple Centre County guys on the USA Fly Fishing Team. Good luck to all and have fun. I will be in Central PA this upcoming weekend but if I wasn't I would go down the following weekend to help.
