If you look at the new list of additions to the wild trout list, there are five tribs to Millstone Creek / East Branch / West Branch that are going to be added.

I agree though, that stream baffles me with the changes that have taken place. It used to be one of my go-to native streams, but they have disappeared in the last 15 years.

So these are streams that are proposed to go on the list, but haven't been put on yet?

Do you have a link to those?
