Thank you all for the helpful advice. I actually went to PSU, but didn't get into fly fishing until taking Prof. Belden's class as a senior. Spent plenty of time on Spring and some farmer's ponds, even hit up Fishing Creek once, but for some reason or another never made it to Penns or the Little J.

I'm originally from outside York and have hit most of the SCPA limestoners, as well as the Little Lehigh and now Valley. Looking to expand my hit list, but grad school is not allowing much time.

Thanks again for all the help; I'll make sure to take a staff.
