ouch!

here is another one that the hook did not go in, instead my fore head stopped 3 big sinkers, fishing off the bridge in pulaski when i was 12. got snagged and when the rig left loose...well i guess you can figure out the rest. it was the only time in my life i saw those stars like in the cartoons and the daffy duck lump grew out of my head just like the cartoons.

i guess with every story...it always could be worse.
