My usual fishing trip lasts about 2-3 hours and I would say I average about 10-15 fish per trip. I have never been a big one for keeping track of numbers, but I last year I started midway through Summer and it confirmed this. As for Frank Nale, say what you want just don't fish behind him because that is the quickest way to get the skunk or close too it. I made the mistake, unknowing, twice last year. I now know what vehicle to avoid. haha
