I am not too familiar with this rod so I can't recommend a line, but I do think some rods just work better with different lines. For instance a faster rod might need an aggressive taper like SA GPX depending on your casting style. Bob Clouser Jr is the manager at the fly shop in Bass Pro in Harrisburg (i think he still is anyway), I would recommend stopping by or calling in to talk to him. He is very helpful and would love to talk to you about this rod and I'm sure recommend a line.
