Rod tube storage in the bed of a truck

I'm looking for a good method of storing my rod tubes in my truck bed. I have an ARE cap and I'd like to hang them from the top. The ARE fishing rod holder won't fit the tubes only the rods. The guy at the ARE dealership offered folding clothes hangers but I'm not sure they will be secure and they will probably fall out after about 2 minutes. The cap is brand new so the thought of drilling holes to mount something kind of scares me.

What do you use? Do you have pictures?
