My best day fishing for wild trout was 40, and I fish some streams where this isn't a crazy number at all, but I also fish some really beautiful streams where this number is a dream. I do keep notes for every stream I fish. Date, weather, stream flow/ temp, numbers/type of trout, and a side note for bigger fish. I like comparing results of different outings. I just love going to the areas where this fish live, numbers or not.
