valdi,

how does that cork taste??

I would fish the 7... maybe the 8 pending how you fish. You might be swinging... not going to get into your mantra.

I will say, however, I have landed King-sized carp on a glass 5 wt., but I got my a crack sweaty from running up and down the creek. Good thing I was wet wading... a quick dip after the fight and all was cooled. Natures way of anti-chaffing.
