16... everytime; usually on the mealy/waxie combo

I have an awesome mind for numbers, yet can never keep an exact count on my fish unless I consciously do so. I know I have been in double digits each Saturday and Sunday for the past 3 weekends on a local tail water, but it's a private club...

however, fish are now refusing bigger nymphs and eggs, and I've resorted to smaller (16-18) shop vacs breaking out of white sucks (antron or zelan) and the occasional pt w. a perfect taper.

when march/april hits and i'm throwing dries to freestone wilds... 40 is an easy day.

same goes for fresh stockies.

it's still always... 16
