You do not need a national forest tag to fish any of the streams that are public in Shenandoah National Park. That's incorrect information. The only requirement is a VA FRESH WATER state license. You do not need to purchase a trout stamp either. If you decide to fish waters outside the park's boundaries then you will need a trout stamp. I buy one just because I don't want to take the chance. Some streams you are required by law to kill all brown trout. In some streams you can harvest brookies (which is the only wildlife you can legally take out of the park). Here is a link to the simple yet informative regulations.

<http://www.nps.gov/shen/planyourvisit/fishing.htm>

Then click on the link for fishing regulations within the park.
