Spent the day at the show with Delta Dog and Nate717.

Nate was looking for a new rod to get his better half into flyfishing. After exploring several options, including a Mystic blank and building her a rod, we stumbled on a really good deal.

The Evening Hatch Fly Shop had Winston Passports for \$160!

The Passport starts at \$229 at Cabelas, and Madison River Fishing Company is now selling them for \$238.95. This was a great price for one of the best casting mid priced fly rods on the market.

It was too good of a deal to pass up, and we each bought one.
