Dear sipe,

Size 6 Chernobyl Ant.

With a 7 1/2' 2X leader and a couple of beadhead nymphs you can throw triple trouble and fish depths from the surface to about 10 feet.

I've had some good days on streams like the Loyalsock with that rig. And I have caught fish on the Chernobyl Ant as well as both of the dropper flies. The Chernobyl is basically used as a strike indicator but sometimes the fish don't know they shouldn't eat it. 😊

Regards,

Tim Murphy 😊
