Dear InTheMend,

While it has been decades since I fished the Little Lehigh there was a time when I fished it extensively.

There was a time a long long time ago when in the Winter I fished a size 16 or 18 GRHE and always did well on the Little Lehigh. I found other more different flies that worked as time went on.

Don't be afraid to toss "junk" flies. Flies like sucker spawn, IPW's, chartreuse wooley buggers, etc etc. Those fish get fished hard and yesterday's junk fly might just be today's new revelation.

Regards,

Tim Murphy 😊
