My 3 favorite old school wet flies are Picket Pin, Leadwing Coachman, Cowdung. I fish wet flies exclusively throughout the entire season. And I do have my favorites for the different streams I fish. Along with the old traditional wets I fish lots of soft hackles and flymphs. Been fishing nothing but these flies for quite sometime and the old traditional wets are still productive today as they were back in the day. I don't quite understand why more fly fishermen today aren't fishing these flies. It's a great relaxing method to fly fish and you'll land lots of fish and lose lots to. But still the action is great.
