Can anyone recommend a good website, or book to get started? I have learned to cast and played around a bit on panfish, but know nothing about where to fish, what to fish with, how to identify the hatch to match. . . etc. Additionally, I'm new to Pennsylvania (Allegheny Co.). I have decent gear for a beginner (not your typical wal-mart box special). I have excellent fly tying gear! When I lived in eastern Maryland, i used to make my own lures, and dabbled a bit with flies, but have a long way to go. So I'm looking for a place to start and learn.
