Fun fishing and the OP got it right, they hit just like PA brookies! Smallish fish to be sure but damn pretty fish. You can get both native bows and wild browns within 90 minutes of LA. I'll send pictures and a post when I'm out there in mid March.

To give you an idea of where the browns are, I fished in the Santa Ana River in the San Bernadino Mountains. And to give you more detail, the fugitive cop Dorner was captured (well found dead) in a cabin right next to where I fished. 🤪
