I'll be bringing quite a bit of electrical stuff. Two phones, a Garmin, TV Monitor and Laptop. Sounds like a lot of you will need electric as well.

I'll bring along electric cables and extra surge protected splitters so we can all get the power distributed that we need. I have this stuff from my show kit.

My two phones are supposed to have hotspot capability although I haven't tested them but will in the next day or so. Each phone should allow up to 5 internet devices to connect and I'll be happy to let presenters that need internet connect to my hotspots. I'm sure hoping there is phone service from Verizon or that might be moot.

I also have quite a map collection. Will bring Delorme, Some 7.5 minute topos and some maps I've made as well. If anyone needs anything special, let me know, I might have it in my archives.

I'm planning to arrive late afternoon the 15th and stay overnight.

Can we get in early to set-up?
