Hi Mike - Yes we can get in early to set up. I was given the security code to the alarm system, and plan on being there between 6:30 and 7 AM to set up.

I'm relatively sure the Verizon coverage is good there, and being able to access your "hotspot" is gonna really help with some of the presenters displays.

This is gonna be a really cool thing, as the stations on either side of you will mesh perfectly with your display. I don't think it it could have been planned to blend together any better!

H.A.
