I came across my stream list from last year. You know, the list of streams that you want to fish for that year. Well, I didn't do too bad I hit a little more than 50% of the streams that I had planned to fish. I also fished many more that I didn't have on the list. As a matter of fact I fished more streams that I didn't have on the list than I had on the list.

If you had a list how did you do?
