does a large price tag mean the best?

Generally a correlation between quality and price, but it's not a hard and fast "rule". There's some winners among the cheaper ones and losers among the expensive ones. And I'm not convinced, on average, that spending double means twice as good. Law of diminishing returns.

Anyway, I'm a stocking foot guy so I can't help ya much on the bootfoot end. I know Orvis Silver Labels come in bootfoot. And I did like my stocking foot version. Can't speak to the comfort of the boots, of course, nor the quality of the boot to wader connection.
