Anyone fish Class A, Wilderness Trout Tribs to Bowmans Cr west of Noxen, Wyoming Co?

I'm looking to try the Class A and Wilderness Trout Streams on PA Game Lands 57, west of Noxen, PA in Wyoming Co. I really want to get out this weekend and first try Sorber Run. Anyone have any experience with this stretch or any other stream in that area, or maybe just provide some advice on where to park, walk, fish exactly? It looks like there is a parking lot on Sorber Mt Rd and only a few hundred-foot walk down the hill.

I live in Dallas, PA and this appears to be the closest public area containing wild trout streams that I can fish catch n release this of year. Cabin fever is getting to me.

I attached a map of the area I reference above. Class A Trout Streams are in Blue and Wilderness are Green. Sorber Run appears to be classified as both, somehow. The shaded green polygons are PA Game Lands. I downloaded free GIS data from PASDA and converted the shapefiles to KMZ files so I could import them into Google Earth.

Thanks in advance.

TJ
