wow, what did this turn into?

i have been wondering for years how many fish i catch so last year i counted otherwise it is an estimate...you would be suprised when you actually count them it seems like you hit 10 buy you only have 6 or 7, think you have 30 and you really only have 19 and 2 suckers.

anyway maybe i should have asked you to define crushing, slaying, killing em instead of asking how many you actually caught.

anyway, good luck to all. we might end up loosing our right to bear arms but we all should keep the right to bear rods!

please practice catch and release unless you are fishing for salmon in the salmon river. :)
