Nockamixon: muskies in abundance, large pickerel

Galena (Peace Valley): Not a place to intentionally fish for pickerel. If present, they have never showed up using electrofishing, gill nets, or trap nets.

Towhee: fair population of CP

Tohickon Creek above Quakertown and tribs (assumed...the tribs look good in places) around Quakertown: some fair populations of CP worth fishing over. No knowledge of landowner situation, but I would not hesitate to inquire as they probably rarely if ever see anglers.

The Giving Pond: not sure if CP are present

Delaware R: Try mouth of Cooks Ck area for muskies and the pool about a half mile below the confluence of Gallows Run (the power plant pool). I caught a 40' pure there. They have been stocked for years from Riegelsville down to Upper Black Eddy.
