Yes their teeth are sharp. I haven't been bitten by a musky yet, but I can tell that a 30" pickerel will cause some blood flow.

As far as rods go, for pickerel I would use an 7-8wt rod with flies anywhere in the 3-8 inch range. 20-30lb flouro bite guard.

Musky, 10wt or larger and BIG flies. 80lb flouro bite guard.
