There are quite a few that the PFBC does offer more year round fishing on:

http://fishandboat.com/images/pages/qa/trout/year_round.htm

The special regulation areas offer your best bet. Do some homework, as streams in the region can be quite different from stream to stream. Freestones with stocked trout will have a very different approach than limestone streams with naturally reproducing trout.

Do double check the areas you are fishing as you want to be fishing in the correct sections of the stream.
