What's up everyone? I've kicked this question around with a few of you and have gotten really good advice so far. I thought I'd post it up here though.

Im going to visit my in-laws the second week of April in Ft. Lauderdale. They're close to Ft. Lauderdale beach so I'll be really close to the shore. I know some of you guys have fished this area (Dave W., ryguy, Alby). Does anyone have any advice on this area? I'm not getting a guide and won't have a boat, unless i rent a kayak somewhere. I'd be lying if I said I wasn't hoping for snook or baby tarpon but any species would be great.

Thanks
