any one fish around there?

the inlaws rented a house down by the beach and well, we'll be there for a week, and i'm definitely gonna be looking to get a way for a a day or 4.

i've never fished salt, or any where around there. so if any of you would want to share any info on salt, and inlet fishing, spots, flies, what ever info you feel like sharing. it would be greatly appreciated.

planning on bringing my 8wts 9 and 10' and the 12' spey, maybe even the 15'er as well...

may also have kayaks(father inlaw is all about them, so could be a nice way to get away form people).

thanks.
