Storing rigs was a mystery to me to until I guided for Kirks Fly Shop out in Estes Park Colorado this past summer. We used 3 fly rigs and had to have them on hand so you won't waste a clients fishing time tying. A fellow guide that has been there ten years showed me if you cut a piece of flat foam that you get in the craft stores about 6x6 and put small slots in the ends you can wrap the 3 flie rigs on them and put the hooks in the foam. Worked great kept my clients who snagged alot in the water not having them watch my knot tying ability .
