Well, my only Delaware experiences where that trip, which you have read all about, and a trip a few years earlier to Cape Henlopen. That trip was early September time frame as well, and I fished the beach on the cape a bit. A fair number of small blues. 1 shark, and 1 little striper.

Good luck, and let us know how it goes. This year's beach trip will be Hatteras in August. But the Delaware shore isn't a long drive for us, and as the kid gets older, we'll likely be doing more time there. Long weekends and such. I'd like to learn the seasons a bit, so your report will be appreciated.
