I hate rubber soles even with studs they suck. A ban may be coming, I have always had at least 2 sets of boots so I don't have to clean the boots until I get home.

Tell us how you really feel Chaz. 😄

Well I used felt shoes for the first time in a long time yesterday and they were like glued to the rocks. Rubber has me falling and slipping all the time. My vote is that rubber still sucks, felt is best, even my shoes yesterday had no studs, which btw some states prohibit, No issues wading.
