Osprey, you are assuming that no one has tried to do anything about the problems at the Tylersville hatchery, but that is not at all the case.

People have been active in trying to get this problem fixed for years. Including complaints to the PFBC and DEP, written testimony and spoken testimony to the DEP at a public meeting about the hatchery re-licensing, AND a lawsuit brought by a citizens group.

Private citizens have spend a lot of time and energy trying to get the problem fixed.
