I enjoy behind Conowingo also. We have a fishing group that does a weekend trip in April every year there. It usually only takes one decent day and they (newbees) are hooked. It is a lot of fun. I usually use a 1/64 ounce dart with a shad fly behind it. This is the same weight as a tss bb shot so it cast fairly well on a 6 or 7 weight rod. Also adds a lot of wiggle to the rear fly. Hope this year has a good run.
