Based on what I've learned on this forum you will probably want 6wt floating WF (weight forward).

Cabela's has a huge selection of fly lines. They have a combo package that includes backing, fly line and leader for \$24.99.

Here's the link:

[Cabela's Three Forks™ Fly Line](#)

I've seen line at LL Bean for \$19.99 in their store but not online.
