i have never used them and they do seem expensive. i am not the smartest guy in the world but wouldn't a small barrel swivel work just the same for nymphing. Just an observation I made, 10 tippet rings for \$4.99 or 72 barrel swivels for \$4.49.

[barrel swivel](#)

Oh, sorry if i offended anyone, am I allowed to mentioned barrel swivel in a fly fishing forum? 🙄 LOL!

don't be silly. i use barrel swivels however the ones you have posted are pure #censor#. these guys are talking about tippet rings that that will float on the surface for dry fly presentations. having said that, as someone mentioned above, one would likely benefit from using a sharpie to knock the flash off of tippet ring. if you want to use a barrel swivel as redrockgrizzly has suggested FOR NYMPHING (which I do) then use a higher quality Mustad or Raven.
