Welcome to the PAFF Beginner's Forum.

Blood knots are tough and I don't really think there's any shortcut other than to practice (which you can do at home while watching TV or something). When you've mastered this knot it will make your fly fishing life much easier because not only will you be able to construct your own leaders but you can re-tie a new tippet every time you break off in the trees or on a stream bottom snag that takes the whole tippet (which happens a lot, even to experienced guys).
