Can anybody offer advice on how to go about acquiring a new tip section for a Sage VPS 476-4? I do not have a warranty card, as I purchased the rod used, and I believe this is a discontinued model. I sent Sage customer service an email, and am awaiting reply. I let them know that the rod was broken by my careless actions, but I don't know what they will be able to do for me. I really like this rod, and I would love to be able to find a replacement for the tip section. Any advice is appreciated.
