If you have ever fished the Breeches you know how good the fishing can be. One reason is the Ybac stocking over 35,000 trout. They are a co-operative nursery with fish and boat and have all the burden of rearing and float stocking the fish for the public to catch.

Spring Outing: March 23, 9:00 to 4:00

Speakers, exhibitors, refreshments and yes they are stocking the catch and release area with some quality trout.

Free admission,so I hope to see everyone there to help support a great group of hard working guys.
