URL:

I fixed the link. Try using the link button (the first button with the chain symbol on it). Copy the address (URL) that appears on the top of your screen. Go back to the thread and hit reply and click on the link button. Paste the URL in the box that appears, and click OK. A second box appears, write a title in that box and hit OK. The title you selected will appear in your post in bold and blue, and your link will come up when it is clicked on by a reader. HTH.
