We fish Lake Anna for crappie last weekend. Saturday it was in the high 50's Sunday 35 deg. Most fish were in 16 to 25 ft of water so it was tough to fly fish for them. However those little berkley power minnows on a 1/32 ounce jig did them in. I usually do not keep fish but my wife and I enjoy eating them. It will be a couple of weeks before the water warms and they migrate into shallower water to target with a streamer. If you like to fish for warm water species this is a great lake.
