What size holes are you talking for drilling. I plan on haveing some pegs to hold 3 spools of thread each. Some counter suck holes for bead storage as well. And some tool/feather holders.

What else am I forgetting?

DGC, this is not a home project, I am going to try and sell this product and turn a decent profit. I personally can see the ease of you wood block Idea but this thing will be a conversation piece and very functional. All I can say about it. LOL
