We live and we learn... sounds like your going to purchase Orvis waders now or some other quality comparable wader. Waders are like car tires... you can purchase cheap tires but your ride is going to be bumpy, noisy, the steering wheel will pull to one side and generally make your drive miserable. Heck, those tires will get you from point A to point B but its not going to be fun.

Fly fishing and wading can be so much more enjoyable when your waders don't leak, keep you warm and fit properly. Granted its not always about the price but you get what you pay for.

As I see it my body is a temple and I only adorn myself with the finest wading fabrics.
