Green weenie,

Is a lot different, and will not have the total number of features but in my opinion will be much more functional, as I said before it is not intended to replace a home tying station, but allow you to add a few material items and tools and take it where ever you want to, and tie anywhere. Stream side on a rock if you find one flat enough.

Would be good for the JAM's maybe Ill donate one for the Jam once I get it kicked off.

Maybe include a T.A.P. member ship. LOL I had to. It almost seemed like you guys were getting a long with me for a few seconds, and I just couldn't have that ;)
