Jabink, exactly, bought a 1 year warranty, no i didn't it came with one but Dick's won't honor it and the women at the mfg. was confused and couldn't help me.

So the question is do you know exactly what do you have?

I've once bought a pair of hip boots from Dick's (\$24) and they came with a 30 day warranty and the boot sole peeled off on about day 25. They replaced them with no quetions asked. I have never seen a huge chain store not honor a warranty if they are the return point. And i have never seen a mfg. not honor their warranty unless the damage was caused clearly by abuse or the claim was being made outside of the warranty period.
