I have only fished with the line a couple times so far, but I highly recommend it. Amazing line for the price.

Ryan, the couple times I fished the the new setup(reel, line) was on a localish warmwater river and didn't catch anything(normal winter results), so I can't say much about the reel but the line is great so far. Hopefully steelhead next weekend, really want to get some fish on that new reel! Can't wait for carp this summer too, and maybe some drag busting hybrids on the fly.
