Not sure if many of you are aware (I know I was not until today when I fished it, maybe I need to read my regs more closely) but the Special Regulations Area on the Saucon has been reduced. It used to go upstream to a little beyond the horse farm but now it ends at the riffle before the long deep flat pool. I'm guessing they cut out a good 1/3 of a mile. Really ticked me too because that flat was alive with rising fish I couldn't fish for! 🙄
