I also think Gierach is one of today's best ff writers. I read Gierach for entertainment. I like Paul Schullery, too, for both entertainment and information. Gierach's Pennsylvania experience as one from outside PA was not to impress others with his knowledge; it was a fishing experience meant to entertain!

Interestingly, C. Meck also wrote of the experience in his book "Memory Rising" in a chapter called "The Plastic Man." Gierach and his cronies are bamboo fanatics and teased Meck about his use of a graphite fly rod.
