Fishidiot as well :)

I'm not a fishing guide. 😊

I often take friends from this forum fishing around here - for free - and this is sometimes described as "guided by Fishidiot" here on these forums - sorry for the confusion.

In addition to Mike Heck (a very good choice), I'd add to the list two excellent guides near here: Tom Baltz and Tony Dranzo. Tom and Tony know the area very well and are among the best known local fishing guides. Tom and Tony can show you Letort, Yellow Breeches etc and they can also take you to some of the lesser known streams around Gettysburg too. Send me a PM and I can get you Tom and Tony's contact info.

Memorial Day is a good time to fish around Gettysburg but don't wait till mid summer as the local trout streams in the immediate Gettysburg area are stocked fisheries, get warm, and usually don't fish well for trout once July rolls around.
